'STUMP LETTERS' TO BE HARDING'S PART IN CONGRESS RACE

PRESIDENT WILL NOT MAKE SPEECHES, ANNOUNCEMENT.
ELECTIONS VITAL
Loss of Congress in Middle of Term Would Be Hard Blow to Party.

By DAVID LAWRENCE.
Washington.—President Harding will not make any stump speeches in the congressional elections but will write "stump letters" or rather letters that will be used on the stump. The announcement that the president planned to keep out of the fall campaign must not be taken too literally in the opinion of members of congress, many of whom were stirred today by reports that they were to be abandoned by the leader of their party to shift for themselves.

What Mr. Harding told some of his friends was that he didn't think that the chief executive should go out on the stump for congress. He is mindful, of course, of the unfortunate interpretation which was placed upon President Wilson's appeal for a democratic congress in November, 1918, when the war was drawing to a close, and he doesn't intend to issue any such pronouncement.

As to President Harding's objection to the writing of a letter by President Harding to some one like Simon D. Tress, chairman of the republican congressional committee, is a question of interpretation. It is a question of interpretation to them or to some prominent constituent answering the usual inquiries as to the president's appraisal of the campaign opens.

Such a letter, it is pointed out, could be used on individual representative and senators also are expected to write letters from Mr. Harding addressed to them or to some prominent constituent answering the usual inquiries as to the president's appraisal of the campaign opens.

MANY ENTRIES IN BIRD-HOUSE MEET

Gazette Contest Arouses Keen Competition—Display Is at Sheldon's

Bird-houses of all descriptions and sizes have been placed in the window of Sheldon's Hardware store in the Gazette Bird-House contest, the exhibition for which opened late Thursday afternoon.

There are few little houses where a wren and his wife will be crowded, and then there are spacious and elaborate apartment-houses, where, luckily for them, rent is free.

A great variety of materials has been used in making the houses. Some are of bark, some of twigs, and others are complete with siding, and tar shingles. Houses to make a bird's mouth water have been placed on exhibition.

A greater variety and a larger number than in any contest previously conducted by the Gazette, is seen. Entries continued to come in all day Wednesday and some fine specimens, showing detailed work, were entered even Thursday.

Judges will begin their difficult work Friday and by Saturday night will have all the prizes awarded. Fifty dollars names the makers of the best house. The sweepstakes prize of \$10 is what all the boys and girls are working for, while there are ten or fifteen other attractive cash prizes. Entries must all be in by Thursday night.

Service Men in Near Riot Over O'Hare Permit; Held "Desecration" of Capitol

By Associated Press.
BULLETIN.
Madison.—Governor Blaine has directed Adjutant General Orlando H. Hays to maintain order at the meeting Thursday night in the assembly of the Wisconsin State Capitol, where Kate Richards O'Hare is scheduled to speak.

The adjutant general, Thursday, expressed confidence that the meeting would be orderly.

Madison.—A near riot broke out at a meeting of the American Legion and other patriotic and civic organizations held here Wednesday night, when Philip Volz, university student and former service man, denounced Gov. J. J. Blaine for permitting Mrs. Kate Richards O'Hare, socialist, to speak Thursday night in the assembly chamber, Lieut. Governor George F. Comings will preside at the meeting.

When Volz referred to the American Legion as a "political football," there was a general rush for the platform and only after considerable jostling and rough handling of the speaker, during which he was knocked down, was the meeting quieted down. Other speakers denounced Mrs. O'Hare for her serving 18 months in prison.

DEATH TAKES BOTH 'SIAMESE TWINS' IN CHICAGO HOSPITAL

ROSA DIES WITHIN FEW SECONDS OF SISTER.
KNIFE IS DENIED
Brother Refuses to Let Surgeons Separate Bodies of Women.

Chicago.—Josefa and Rosa Blazek, the "Siamese twins," died at a hospital here at 2:37 a. m. Thursday. Josefa's death occurred first and was followed in a few seconds by the death of her sister.

Physicians had declared early in the night that in the event of the death of one of the sisters, the other would die, inasmuch as their brother, Frank Blazek, had refused to permit an operation which would separate their bodies.

The twins have been confined in the hospital for 20 days. Josefa was ill with diphtheria followed by pneumonia. Shortly before her death, Rosa was afflicted with bronchitis.

Following the refusal of the brother to authorize the operation, Dr. B. H. Shattuck, chief of the surgical staff of the hospital, declared Thursday morning that it would be impossible to save one of the twins in event of the other's death.

Consent to the operation had been made for the operation and the physicians were ready to make every effort to save the life of at least one of the women.

Hope of saving the life of Josefa was abandoned at mid-night.

"I tried to get the consent of the brother to operate to save the life of Rosa, but he refused to give his permission," said Dr. Shattuck.

A delicate operation would have been necessary. Before their death, he had expressed the opinion that the physiological affinity of the twins was so vital that if one should die, the other might also succumb before the band of flesh and bone that joins them could be severed.

Survival of Rosa. Although the twins possessed separate respiratory and cardiac systems, Dr. Shattuck explained that they had only one set of secondary digestive and procreative organs. The operation, he said, would have necessitated building up of a part of the digestive and other essential organs to save the life of one twin.

Rosa was once married, her name is "Philistine."

Mrs. Myra DeFrees, superintendent of schools calls on the members of the club to "be more specific—tell in exact terms what their ideal is."

While Miss Aurelia Trujillo, former editor of the Mosquito Sun, declares that "when girls learn to dress so as to show more of their ears and less of their knees, to dance with more grace and less indecent twiggling, they will be more desirable in the eyes of serious minded men."

Meanwhile the wisecracks of the town are chuckling as the controversy rages.

WILL SPEND REST OF NATURAL LIFE IN PENITENTIARY

Slayer of Chum Is Sentenced in Walworth Court

Fred McBride.

Elkhorn.—With a smile on his face, Fred L. McBride, 24, was sentenced here late Wednesday by Judge E. B. Belden, to spend the rest of his days behind the walls of the state's prison at Waupun for the murder of his companion, Edward Thielien.

The crime was committed as the two sped, on Nov. 19, in Thielien's car toward the George Taft farm. Here they had worked for many months and were pals, being constantly seen together in their leisure moments.

As predicted in the Gazette Wednesday, the decision of the court, Dr. L. R. Head, formerly superintendent of Mendota asylum and Dr. W. F. Voigt, Milwaukee, as to whether McBride was sane or insane decided the matter of life imprisonment or commitment to the state hospital for the insane.

Held McBride Sane. After an examination of the prisoner in his cell in the Walworth county jail, where he has been since being brought back from Akron, O., the alienists told Judge Belden that McBride was sane. The state of McBride was sealed. It had been agreed by Attorney Roscoe M. Luce, Elkhorn, who has made a valiant attempt to save McBride from punishment, that being appointed to defend him, that McBride would plead guilty and take his punishment should the alienists declare him sane. There was the alternative of a trial and a fight to convince a 12 man jury of his sanity.

McBride was doing, but the outcome in the face of all the evidence and the confessions made by the man which had been checked up by the court and the jury, was doubtful. The found correct even in the face of the fact that McBride had been in a mental hospital for some time.

McBride was spared the ordeal and Walworth county the expense of a trial was thought best.

Piendia Guilty to Charge. Judge Belden, arriving on the afternoon train Wednesday night about 8:30 a. m. when he heard the decision of the alienists, consulted with Attorney Luce. Mr. Luce, after a prolonged consultation with McBride, then announced the defendant would plead guilty and receive sentence.

There were few in the courtroom to see the climax. News of Judge Belden's arrival had not spread through the town and there was a full court of spectators and court officials, including District Attorney Johnson, Sheriff Jack White and his assistants when McBride answered "guilty" to the questions put by Judge Belden.

McBride was sentenced to life imprisonment in the state's prison at Waupun for the rest of his natural life and that the first day of his sentence be spent in solitary confinement, and that he be kept in the prison for the rest of his life.

The coolness, the seeming absence of any remorse over brutally murdering the man who had been his friend, for the sake of a few dollars, and the fact that he had been in the community where he had lived a life, was portrayed on McBride's face, as he received his sentence.

Leave Farm Together. Edward Thielien and Fred McBride quit work Nov. 18 at the George Taft farm near East Troy, where they had been employed for nine months, and the last seen of them together by people in that vicinity was when they drove away, headed for Racine. The two visited at the Thielien home and on Nov. 20 started back for East Troy, where (Continued on Page 4.)

Action Against Tomah Company Is Dismissed

Madison.—Attorney General William J. Morgan lost the first of his anti-trust suits, started before enactment of the new state law against combinations in restraint of trade, when Judge Sherman E. Smalley of the fifth circuit late Wednesday dismissed the action against the Tomah Mercantile company on the ground of insufficient evidence.

This case was started almost a year ago by the attorney general, when complaint was made by citizens of Tomah, alleging combination to maintain prices on the part of the mercantile company. Judge Smalley said that in his judgment the evidence did not warrant a prosecution of the action.

No appeal will be taken, according to G. F. Clifford, special assistant attorney general.

Author and Artist in Fist Duel, Says Report

By Associated Press.
San Francisco.—Harry Leon Wilson, author and playwright and Theodore Criley, artist, fought a duel last Saturday, according to a story printed in the San Francisco Examiner Thursday.

It was fought in a sheltered alley 70 miles south of here and at daylight. The weapons were fists: Criley won.

According to the Examiner, the feud arose from a quarrel after a New Year's festival. A challenge was issued, the story runs, Wilson said he would bring two seconds, but Criley declined to bring friends into the fight. Wilson suggested self riding gloves.

Criley accepted the challenge. He appeared alone and spoke no word until the end of the duel.

Wilson paced off a ring. Old English rules were approved, providing that a knockdown constituted a round and for intervals of three minutes between rounds.

HIT LA FOLLETTE ON WAR RECORD

Wisconsin Loyalty League, Opposing Senator, Meets Wide Response.

Madison—The move of former service men at the University of Wisconsin to organize the Wisconsin Loyalty League, opposing re-election of Senator Robert M. La Follette, in the September primaries because of his record during the World War, is meeting with wide response throughout the state, according to a statement issued Thursday.

The Loyalty League, whose avowed purpose is political, charges Senator La Follette "failed thenation in its greatest crisis," and calls for a "united organization of ex-soldiers to defeat him at the fall election. It is pointed out that anyone who subscribes to the league's sentiments is eligible for membership.

At a recent meeting, Martin R. Paulsen, a senior law student, was elected president of the league, which is now seeking members. The following statement was issued:

"La Follette's record during the war proved him to be an unfit man to hold a post which imposes grave responsibility in any crisis, in which the safety of the nation is menaced by foreign foes; all who believe his activities during the war tended to handicap the nation in its hour of peril and to increase the hazards of local Americans who had bared their breasts to enemy guns, the Wisconsin Loyalty League urges to communicate with its president."

Active campaigning against the senator will be undertaken by the league when the election gets under way, it announces.

INTEREST IS HIGH IN MARKET PLAN

Opening of the Park Street Public Market on Saturday at which Colonel W. T. Dooley will act as auctioneer is interesting to numerous farmers. In fact, a large number of entries are reported by John Waldman who is favoring the plan and every indication points to a large attendance and great interest.

Loadings of material to be disposed of on that date included almost everything known for farm use. The opportunity for a farmer to rub elbows with his neighbors and dispose of what he has in excess and secure the articles he most wants is emphasized through a weekly sale of this character.

It is hoped this will become a regular weekly public institution.

Principle and Interest

"Looka here, young man," complained a pseudo-business man in the export business, "don't spend so much time seeing that these purchasing agents get suited to a hair. And cut out such silly inspection of shipments. Whose interests are you working for, mine or the customers?" An isolated survival of an ancient fallacy—and one that reflects as much on the man's intelligence as on his character.

It is a fundamental of our business that our interests are our customers' interests—we can only safe-guard the one by conserving the other. Both principals to every transaction here profit by the principle of mutual interest.

POLITICAL ANNOUNCEMENT

Written and Publication Authorized by the Citizens' Committee, T. O. Howe, Chairman, and paid for by them at the rate of 85c per inch.

It is stated that under the City Management Plan of Government the city is run strictly on business lines, in that the City Manager is not chosen by the people or answerable to them or influenced by them, and does not have to be a resident of Janesville, and will be specially trained.

We know of no successful business in which the management is turned over to a stranger who has no interest in the business other than his salary, which we understand will run from \$10,000 to \$15,000 annually.

The nearest approach to this form of management has been in the Chamber of Commerce. The directors of that organization have been public spirited citizens serving without pay, such as would be desirable for Aldermen under the City Management Plan. In the past, however, they have found it extremely difficult to secure successful managers, although they have had large lists of these specially trained applicants to choose from. To properly manage Janesville's city affairs will call for more executive ability than to run a Chamber of Commerce.

It is extremely difficult to find capable business executives in any line, although the opportunities for training and experience have been open for years. It will be far more difficult to secure an efficient city manager as the idea is comparatively new, and few, if any, experienced men are available as the Council upon sixty days' notice may discharge the manager. No successful business man will leave his business to accept such uncertain employment. The candidate for city manager will either be an unsuccessful business man or a young man with plenty of theory and entirely lacking in experience. He will have far more unrestrained authority than the manager of any business has, as it is absolutely impossible to get taxpayers and aldermen to take the same interest in city affairs that they have had in their own individual businesses.

Some of those in favor of City Management Plan are trying to hide the real issue of this election by criticism of the present city officials. Remember, the real issue before you is not whether you are in favor of the present administration but whether you shall change from the present representative form of government to one man rule.

SLAYER OF CHUM IS SENTENCED IN WALWORTH COURT

(Continued from Page 1.)

McBride said he had lost the money paid him by the Taft brothers. The two were planning a trip to California in Thielens' car and McBride had obtained a revolver from an East Troy hardware store for protection. Driven by the thoughts of the false stories of wealth he had told, and wanting to get away from his fiancée, Mabel Mitchell, McBride conceived the idea of shooting his pal and getting \$100 which the latter had received as his wages. As they were speeding towards East Troy, McBride fired a shot from the 32 calibre revolver through the back of Thielens' head, and killed him instantly.

Drives With Body.

Driving the car around the country with the body of the dead man in the rear seat, McBride finally stripped the body of all clothing except the underwear and threw it into Miracle creek, three miles from Palmyra. He expected the body would be carried down stream. He then drove to East Troy and spread the report that Thielens had gone to Chicago. After selling the car in Milwaukee for \$75 and shipping the clothes to a fictitious name in a southern state, McBride left for Akron, O.

The body of an unidentified man was found in Miracle creek, Dec. 12, but a few days after Tommy O'Connor, condemned slayer, had escaped from the Chicago jail. An attempt was made to form a connecting link with the two events but this failed. Other clues were offered but the inquest held at Palmyra closed in January after all sorts of clues offered, as to men who were missing, was exhausted.

Body is Identified.

A clue offered by a truck driver of East Troy, who saw the photograph of the mysterious man of Miracle Creek and recognized Thielens, led to the solving of the murder. Mrs. Thielens, worried about her boy, wrote Mr. Taft about Feb. 15 and on Feb. 19 came to see him and saw the photograph of the dead man. On March 21 the body was positively identified as that of Thielens and search started for McBride. He was arrested at Kent, O., near Akron and on Feb. 25 he confessed while speeding back on the train to having murdered his chum. He indicated a desire to plead guilty but the case was delayed when an attorney, sent from Portland, Ind., by relatives, entered a plea of not guilty and insanity. The appointment of a board of aliens was made Tuesday and following the report Wednesday, McBride received his sentence.

There will be one sweepstakes prize of Ten dollars for the best in the whole exhibit and the judges will distribute the rest of the prizes down the line in groups and classes as they are shown, age, residence and training taken into consideration.

The public is invited to see the bird houses Friday and Saturday. It is well worth seeing if you take an interest in either birds or the young people who have entered the contest.

Entries close Thursday and all exhibits must be in by Thursday afternoon.

Tumbling the timber for a count of 2,712, the Merrick Dairy quintet hit third high team scores for three games in the City League Wednesday night. They cut the pins down for 311-958-852. Yet, while they were making this count, the Lewis Union Suits—who by the way, hold the first and second high scores—grabbed two games from them.

A number of high figures were run up by individuals in a fast night of rolling. Merrick made up of 224-179-203 and 192-231-173. In addition the following were set up:

Stewman, 225; Richards, 225; Hammond, 223; Kressin, 221; Cook, 218; Schoenig, 204; Richards and Kelsey, 202; Burke, 200.

The Janesville Pure Milk's sailed into Shurtlett's for two, taking one by seven and losing one by five. Shurtlett's also came in for a drubbing by the Merricks, two games.

Losing two to the Cronins, the Gazette slipped back into fourth place while the Lewis Union went into third by a slim margin.

The biggest surprise came when the Yahn Kellys Springfield's dunned the Bake-Rites three straight.

ANNOUNCE RULES ON FEMALE LABOR

Industrial Commission Sets
Fourth Regulations for
Pea Canneries.

[BY ASSOCIATED PRESS.]
Rules governing hours of labor
and minimum wages of women and
minor employees in Wisconsin pea
canning factories for 1922 were an-
nounced today by the industrial
commission.

Women employees under the rules
cannot work in excess of 10 hours a
day and 55 hours each week, except
in emergencies, when an extension
to 12 hours a day is allowed not to
exceed 10 days during the season
and never more than 68 hours a
week.

A minimum wage for all women
and minor employees of 22 cents an
hour outside of cities with a popu-
lation of 5,000 or more and 25 cents
in such cities, must be paid. When
the statutory ten hour day is ex-
ceeded, women employees must be
paid at least 33 cents an hour for
overtime.

Concessions for emergencies are
said to be less extensive than in
previous years, with the number of
overtime days reduced from 15 to
10, and the maximum week from
70 to 66 hours. The 1922 rules do
not permit overtime for girls em-
ployed on permits.

The commission requires that
there must be a rest period of at
least nine hours between working
days, and that a meal period of at
least 30 minutes must be given at
the usual time for meals. All em-
ployees are required to designate
some one person to be responsible
for compliance with the commission
orders and the state labor laws.

\$2,080 Raised in Drive for Y.W.C.A. Fund

A total of \$2,080 had been re-
ported to the Y. W. C. A. drive head-
quarters at noon Thursday. In their
present drive for \$9,000, which
started Monday, April 3, until the full
amount has been subscribed.

The 80 women working for the
amount, up to Thursday morning, had
been members of the association since
the association only. Thursday sev-
eral started out to cover the busi-
ness section and the community in
general.

Workers are meeting with a good
response almost everywhere. One
young woman, who had subscribed
a considerable amount when the
drive started, doubted when the
money could pay for, and that she
wanted other young women to have
the same chance.

The Athens and the Helping
circle of the Baptist church turned
in considerable amounts as groups.
Other church and social organiza-
tions are taking up subscriptions.

MOTHER-SON MEET PLANNED BY H-Y

ler gave a demonstration of how to
break a grip in the water.
The club is planning a mock trial
April 28 and a mother-son banquet
April 12. Thirty attended the meet-
ing Wednesday.

STORM PUTS ROADS IN BAD CONDITION

Sleet and Snow Make Many
Highways Impassable—
Little Wire Damage

Rain, sleet and snow of Wednes-
day night and Thursday, accom-
panied during the night by cold
blasts, did little more damage than
inconvenience pedestrians and ve-
hicles in the city and make rural
roads impassable. While some wire
trouble was experienced by the Wis-
consin Bell Telephone company,
and minor difficulties by the Janes-
ville Electric company the ice on the
wires was not heavy enough to hin-
der traffic.

A drop in temperature to 30 ac-
companied the storm.
Reports by motorists are that
roads in Southern Wisconsin are in
terrible shape. Between Janesville
and Milwaukee, the route
through North Prairie is closed. In
addition there is an almost impos-
sible stretch within a few miles of
Waukesha. The road is full of
quagmires between Elkhorn and
East Troy.

Routes to Hanover, either via
Footville or regular No. 29, are im-
passable. It is probable that the
stop which no reports have been
received, are in equally bad condi-
tion.

FOOD LESSON No. 17

GOOD LUCK— A Milk Product

Our very lives depend on milk.
We thrive upon it from infancy.
It promotes our growth and,
when growth is fully attained,
preserves our health.

Thousands of gallons of pure, full-
cream milk are used daily in the
churning of GOOD LUCK—the
nourishing spread-for-bread.

It comes to us fresh from the
model dairy farms of the Fox River
Valley. Thus GOOD LUCK—
abounding in healthful butter-
fat and vitamins—the richest milk
obtainable.

The health-sustaining value of
GOOD LUCK is further in-
creased by the addition of meat
oils during the process of churn-
ing. These oils, extracted from
the fats of corn-fed beef cattle,
have similar nourishing quali-
ties to the butter fats of milk.

Thus GOOD LUCK is more than
a tempting spread-for-bread. It is
an unequalled combination of life-
giving foods in the most delicious
form imaginable.

utes steadily and can't be stopped

Send every energy to finish the high school

Janesville needs and should have ample hotel

be especially true when the high school is
completed and the auditorium is available
for the largest conventions.

Finish the paving of Janesville streets as

BURR W. JONES.
It is well to again remind the voters of the
state that they have a duty to perform on election
day more important even than any local issue—
the election of a supreme court justice of the
state. They have the choice of two candidates,
one a socialist and the other a patriotic citizen,
a scholar, a lawyer, a judge of erudition and
keen sense of justice and equity, a man of the
people, born in the ordinary circumstance of a
country boy here in Rock county, going through
the struggles of youth and manhood and never
having betrayed a trust or disappointed the pub-
lic in his steadfast devotion to duty.

This is the record of Burr W. Jones, formerly
of Rock county, living in Madison, a member of
the supreme bench to which he was appointed
when Justice Winslow died, and now before the
people as a candidate on the non-partisan ticket
for election. Here in the county of his nativity it
would be a great tribute to Justice Jones if he
received the total vote of the electorate. In
the state his majority ought to be pronouncedly
large. It is well to keep the bench clean and
out of politics. It is well to maintain its high
dignity and continue it as a seat of confidence. It
will be in that direction and along these lines if
we elect Burr Jones on April 4.

The man who assaulted a riotous occultist
was striking a happy medium perhaps.

THE VOICE OF CALVIN COOLIDGE
Somehow we do not associate Vice-president
Calvin Coolidge with mere political expediency
or accept him a purveyor of idle words to uphold
any cause. That is his reputation. In the past
Sturdy honesty and clear speech has been his.
So when he goes into some detail as to the ac-
complishments of the Harding administration in
the year of his service to the nation we are rather
apt to listen. He calls attention to the wrecked
condition of business, of finance, of the equivocal
position of the United States in the world of di-
plomacy and the struggles of the year to bring
some sort of legislative order out of the chaotic
condition confronted by Mr. Harding. Mr. Cool-
idge says Mr. Harding has accomplished a task
in a masterful manner and the achievements of
the first year are of a character to warrant the
undivided support of the president by the people.

If it is easy enough for the public to seek immed-
iate remedies for ills which no law or congress-
ional action can change, then failing in secur-
ing that change, revenge upon the administration
comes as the immediate reaction. It has been
established as long as law has been law that re-
medial legislation in economic situations, unless
that situation was created by legal enactment,
could not be remedied by passing another law.
Not all the quick statesmen in the world can
legislate a purchasing power of 23 cents in a
Russian paper ruble, a German mark, or de-
stroy the value of an American dollar. Nor can
we ease the business conditions of the nation in
a moment and we are steadily approaching an
orderly economic position by the natural read-
justments that will bring us to stability and added
prosperity.

The naval treaty was ratified without sufficient
food of oratory to float a new battleship.

One of the reasons why there will not be more
building in Janesville this year is that large sums
of the money of the city are invested in non-tax-
able securities because of high rate per capita of
taxation here in Jan. 1922.

Henry Ford says he will be able to employ
800,000 former service men and save the bonus.
That will be 50 years from now and some of
the men might get tired waiting for a job.

Perhaps Mr. Blaine figures that Kate Richards
O'Hare is no worse than some of the others who
have spoken in the capitol.

What we need is a full with plenty of hard
work attached for the young millionaires who are
regular patrons of late.

The fact that the first visit made by Justice
Briggs to any big town was on a load of hay
coming into Janesville will not affect his appre-
ciation of a hard seat on the bench.

With the bottom out of the roads the spring
town elections are not apt to become riotous
with the crowds at the polls.

Most of the things that Hearnst and his knock-
em-all saw in the 4-power treaty were as remote
as the Antipodish ghost.

BATTILING WITH DISEASE

By FREDERICK J. HASKIN

Washington.—When a new chief of police was
appointed recently in Washington the announce-
ment went forth that gamblers, bookmakers,
drug peddlers and other forms of underworld en-
tertainers had better seek fresh fields for their
games. Those forms of vice which exist in every
city which has no strong civic consciousness were
running wide in Washington. They were run-
ning quietly, but the door was always open.

With the announcement that the new chief of
police would start a determined effort to clean up
the capitol city, a little known bureau of the gov-
ernment stepped forward with a long list of
places on which evidence had been obtained. Vice
was rampant on the very doorsteps of the capitol
building itself, the report showed. A congress-
ional investigation is under way to verify this
report and find why this condition exists in de-
fiance of the law.

The quiet government bureau which had col-
lected these facts goes by the name of the U. S.
Interdepartmental Social Hygiene board. The
"interdepartmental" comes from the fact that the
secretaries of war, the navy and the treasury are
on the board, as are the surgeon general, the
army, navy and public health service. The
active head of the board is a woman, Dr. Valeria
H. Parker, who has had very wide experience in
social work. Before accepting the position as
Uncle Sam's watcher over the young men in the
nation's armed forces, Dr. Parker was chairman
of the social hygiene committee of the National
League of Women Voters and a member of the
section of Delinquency of the National Conference
of Social Work.

The government war on vice is organized
through this bureau. The board is directly
charged with the duty of protecting the health of
the men in uniform while they are in civilian
communities. So well has the work been done
that in one year it is estimated that over \$1-
000,000 was saved the government. This amount
would have been spent in the hospitalization of
infected men, had not the number of infections
been greatly reduced. The cost of the work has
been about \$225,000. It is a paying proposition.

The government's war on vice represents a
new and powerful force at work throughout the
nation today. Science, substituted for sentiment,
is giving the social side of public safety.
The scientific side of reform and reformers is
the view taken by the Interdepartmental Social
Hygiene board. Interested in the health of the
nation, the scientific side of health and disease is
being preached at every opportunity through
public health meetings in every state, attended
by medical men, public health officers, and re-
presentatives of societies interested in the question.
The moral side of the question is being left to the
churches, as falling properly within their
province.

The medical approach to the subject by the
Hygiene board is short and direct. "Science has
proved that no way has been found to make vice
safe. Therefore the only safe thing to do is to
attack vice. This plan has a proven record and
is an excellent example of the cheaper to prevent
than cure policy of modern medical practice."
Just how heavy the vice toll becomes was
gathered from the records of the public health
service which is working at the problem as it af-
fects civilians while the Social Hygiene board
handles the military end of the matter. Physi-
cians of the service estimate that about 1,500,000
cases of disease due solely to bad social conditions
occur each year.

The Social Hygiene board places the cash cost of
this social folly merely among the soldiers in the
army during the war period at \$72,000,000. In
1919, the cost in the army was placed at \$35,000,
000. The cost was cut in 1920 to about \$5,500,
000. It is about one-third less this last year, due
to the more effective prevention work, previously
mentioned.

In civilian circles medical records are harder
to obtain. The accurate type of record kept by
the army and navy is not available for civilian
affairs. But the draft records show that in civil-
ian life, at least \$54,000,000 a year is the wage
less alone, due to these social diseases. This is
simply the amount lost due to the inability of
people so afflicted to perform any useful work.
The figure is based on a daily wage of only \$4,
and is probably low, as disease plays no favorites,
but hits all classes of society, rich and poor alike.

The American Social Hygiene society which has
long conducted a war against this plague esti-
mates that the complete cost of these ills, largely
preventable is \$133,000,000 in one state, Illinois,
alone. One cost is placed by authorities at
about \$100,000,000. These figures include items
such as doctors' fees, lost wages, expensive drugs
needed for the cures, which are not met by the
individual, then partial costs for maintaining hos-
pitals for the insane and the blind, the cost of
treating women who become infected through
marriage and are forced to undergo complicated
operations, much of which is met by the taxpayer,
for much of this work is done at public expense,
for the general protection of all.

The old idea that segregated districts tended
toward safety in vice has been exploded. It is
claimed, as the disease rate among troops in
America was about one-third that of troops in
foreign countries, where the open districts were
in operation.

Vice cannot be abolished by laws, the board
holds. Education along the proper lines of sex
is essential. The subject which has been hidden
under a blanket of assumed innocence must be
exposed to the light of understanding. The cure
will be brought about that way.

Dr. Parker declared that boys are naturally
just as clean-minded as girls. Yet boys, she holds
do not receive in the average home, the same
instruction on physical questions which comes to
the girls. The result is that the girls are more
clean-minded at the critical age. But she also
admitted that the whole subject does not receive the
attention it needs as a primary one in life. The
home, the church, the schools, all side-step,
she declared, and when sex becomes part of a boy's
life he has had little instruction and is generally
allowed to drift along as best he can, exposed to
the bad influence, too often, of commercialized
vice.

The laws in the United States, Dr. Parker be-
lieves, as they relate to this question, will be-
come more stringent as time goes on. "The United
States is leading among the nations in taking ac-
tion on this question. Regarding the enforce-
ment of prohibition, it was thought that the
question would gradually work itself out, when
more people had paid the price of blindness or
death from bootleg poison. But by stringent laws,
it is not meant that the movies would be dark-
ened, or that grandpa's pipe would be taken
away. The entrance of women into politics
probably will lead to more effective laws and
heavier penalties to the operators.

The work of the board is to get the nation
carried on through nine districts officials, each a
field representative. These in turn are aided by
field agents, located in cities near the Army or
Navy posts. The field agents keep in touch with
the medical officers of the armed forces and re-
ceive weekly reports as to how much or how lit-
tle commercialized vice in each locality is under-
mining the health of the men. Closing the red
light district in one city resulted in cutting the
disease rate from 199 to 27, which is cited as a
"health example in disease prevention."

The field agents keep in touch with the mun-
icipal, county and state health officials, police off-
icers and other organizations. Thus, the vari-
ous figures are obtainable on the commercialized
vice question. The board's figures are also good
indicators of the conditions which exist among the
civilian population. Through these field officers
the board is quickly able to place its hands on the
vice situation in any part of the country. The re-
sults have been that 77 districts have been closed,
and that hundreds of cities have staged "clean-
ups" which will have an important effect on the
future generations of Americans.

JUST FOLKS

By EDGAR A. GUEST.

AGE AND BOYHOOD.

When Age considers Roguish Twelve it ought
to look through kindly eyes.
If wisdom were the gift of youth, then little
children would be wise.

They took him to a lecture hall, a healthy
youngster twelve years old;
Just what to do and how to act the little fel-
low had been told.

Now lectures may be proper stuff to pour in
grown-up people's ears.
But where's the boy of twelve who cares
about "The Mystery of the Spheres?"

They sat him in a straight backed chair and
soon the lecturer began.
Deep in the lore of ancient life the heavy-
freighted discourse ran.
The youngster shifted in his seat, annoying
people round about.
Then suddenly he exclaimed aloud: "Gee whis, I
wish you'd take me out."

He squirmed and twisted, moved his chair,
and dropped his marbles on the floor.
He yawned a healthy boyish yawn, and then
they showed him red with shame, and
those who round them sat.
Wondered what they were thinking of to let
the boy behave like that.

But I maintain the lad was right and good
as twelve year old can be—
They ask too much who want a boy to be as
grave as fifty-three.

The fact all will see with grim old Age, which is
severe and stern and cold.
And looks for grown-up conduct in a healthy
boy just twelve years old.

ON THE SPUR OF THE MOMENT

By ROY K. MOULTON.

PLUMES ARE "IN" AGAIN.

The plume adorning Maggie's hat is six feet
long, I know it.
I doubt, indeed, if there's a girl that's tall
enough to grow it.

She sits within the trolley car and strikes a
lot of poses;
She swings that six-foot plume around and
tucks it twenty times.

Unwittingly she sweeps the roof, wipes cob-
webs from the ceiling,
And, brushing the conductor's chin, gives him
a creepy feeling.

A Kansas man bought a revolver and insisted
that his wife do some target practice so she
could defend herself in his absence.
After the bullet had been dug out of his leg
and the cow buried, he changed his mind.

Race of people with tails discovered by Bor-
neo explorer. What strapangers they would
make!

Connecticut man threw a bucket at his wife.
Maybe he wanted her to kick it.

Who's Who Today

SIR LAMING WORTHINGTON EVANS.

From a political enemy and critic of David
Lloyd George, British premier, to his most
trusted lieutenant is the tale of the public life
of Sir Laming Worthington Evans.

The portfolio was made
vacant by the enforced resig-
nation of Edwin S. Montagu.
Worthington-Evans is a
lawyer who has amassed a
fortune through the prac-
tice of his profession. He jumped
into prominence first by his
constant and skillful criti-
cism of the national insur-
ance scheme devised by Lloyd
George while he was chan-
cellor of the exchequer.

The Welsh wizard soon de-
cided that it would be better to have Worthing-
ton-Evans as a friend than as a critic and foe.
An alliance was formed. Worthington-Evans is
regarded in every sense of the word as a
Lloyd George man.

With the outbreak of the war he became con-
troller of the foreign trade department of the
foreign office. Later he was made a member of
the department of munitions.
When Lloyd George became premier, Worthing-
ton-Evans successively became financial sec-
retary of the war office and cabinet minister of
blockade and secretary of war.

Worthington-Evans has solved many trying
problems during the war but it is doubtful if any
were more difficult than the one he now faces—
pacifying the rebellious Indians.

Personal Health Service

By WILLIAM BRADY, M. D.

Noted Physician and Author

FEMININE FRAILTY

Even among women who have had
a high school and college training
there is still ignorance of the kind
that was once deemed refined and
polite and is still fostered by the
great majority of high schools in
America and some of the colleges.
Ignorance of all that pertains to self
and sex. This is reflected in the su-
perstition of women that more or less
incapacity is to be expected for two
or three days in each month. Ac-
cording to Dr. Clelia Duell Mosher,
medical adviser of women in Stanford
university, there is a law in one state
providing for absence from work
during the function morbidly and
wrongly called periods "sickness."

Calling that normal or physiologi-
cal function "sickness" is a fine thing
for the business of the nostrum mon-
ster who appeals to the credulity of
ignorant women with wild claims of
harmful concoctions purporting to be
good for the "weaknesses" of the
sex.

As a matter of fact, the feminine
sex is neither weaker nor more sub-
ject to injury or disease of the re-
productive system from stress or de-
cidents of exposure or cold than the
masculine sex. But it covers a great
many medical diagnostic shortcom-
ings and helps to bolster up many a
salesman in his little device of dis-
cussions of female weakness and dis-
eases in the popular mind. There are
literally thousands of ignorant
women, many of them college bred,
mind who suffer, in mind, body
and in the common notions about
"displacement" for example. And I
am sorry to say that many an incom-
petent doctor has acquiesced in this
notion and added to the weight of
misbelief on the woman's mind by
administering wholly futile and un-
justifiable courses of treatment. Not
that prolapse or displacement never
occurs, but that it seldom accounts
for the symptoms the woman com-
plains of. It is a real existence. I am
not referring to conditions equal to
injury in childbirth, but to conditions
in women who have borne no chil-
dren.

One woman, acquiring glimmerings
of intelligence after she had finished
her education, found that the harm
came from continuing the regu-
lar daily cold bath through the time
of the period, and in fact I believe I
enjoy better health. At any rate, I
know that since I began ignoring the
function or constant thinking of it as a
sickness, and keeping up my ordinary
activities, I have become free of all
the old pains and am no longer even
temporarily disabled or discomforted
by menstruation. So, this I feel
grateful, I assure you.

I am right in saying that the feminine
sex is sadly uninformed and misin-
formed. Yet I know your wholesome
teachings are bearing good fruit for
I have met many women who tell of
the great help they have derived
from following out your advice and

Under the cumulative system of

could cast three votes for one candi-
date, or one vote for each of three can-
didates, or one and one-half votes for
each of the two candidates. The ob-

This spring, if you are intending
to put up a garage, add a porch to
your house, lay down a new floor
in the cellar, or anything of that
sort, remember that it is possi-
ble to save money by using a
minimum of cost.

Concrete making, making the
necessary forms and laying the
concrete for things of the sort
mentioned are easy if you follow
simple directions.

Any of our readers can have, en-
tirely free, a copy of a valuable
booklet containing the necessary
directions. The booklet also con-
tains many valuable suggestions for
uses of concrete.

WHAT HAS GONE BEFORE.

George Morton goes to work at the home of Platter, a rich man, when his father loses all his property—a livery barn, a house, a horse, a car, a boat, a train and as a part of the job acts as groom to Sylvia Platter when she rides. Sylvia is a very beautiful girl, George and thinking her unbecomingly, George kisses her, calling out that he loves her. She drives him from the place and George hires his brother, who goes to horsehip him, but in a fair fight, he seeks an education, goes to Princeton, meets Daisy, a tutor, gets a place on the football team and aids his college to win from Harvard. He makes many acquaintances. He has determined that Sylvia Platter shall marry him and meets her several times, each time becoming wider the breach between them. But he continues in the determination. Betty Allison is very beautiful, and at her home meets her friend, Sylvia, which is embarrassing. George gets a job with a broker, and makes a success, and in college secures a high social position. But Sylvia still flouts him, showing brotherly love, and returns from her brother, a second, Dalrymple. George goes to training camp and says to Sylvia, he is coming to fight, over-sea, Dalrymple, an enemy of George, seems to be the favorite with Sylvia. George returns from war after saving Lambert, who is desperately wounded. He fights the restlessness and anxiety apparent following war, but makes no headway with Sylvia.

(Continued from yesterday.)

"You'd crush essential industries off the face of the earth! You'd go back to the stone age!"

"Not," Allen answered, slowly, "as long as the profits of the past can be got out of the stone age."

"You'd grab capital!"

"Like a flash; and what are you going to do about it?"

"I'll tell you what I am going to do about it," George answered, "I'm going to get a lot of others with me. I'm going to get rid of those stocks if I have to throw them out of the window, then you'll have no gun to hold at my head."

"Throw 'em away," Allen warned, "and you'll throw it all."

"The beautiful, pure social revolution!" George sneered. "You're less honest than you were when you dropped everything to go to London, Allen. What's the matter with you, Allen?"

Allen appraised again the comfortable room. Even now his expression didn't alter materially.

"Nothing," Allen knew. "Unless the universal spirit of grab has got in my own veins."

"Then, my friend," George said, pleasantly, "there's the door."

XVII

George found himself thinking and talking of Allen's words quite enough to please even Dalrymple. On the other hand, perhaps because of the heavy, settled atmosphere of the marble temple, had changed his tune. "Things are bound to come right in the end," he said.

As far as George was concerned he might as well have said:

"This marble surrounding me is so many feet thick. Who do you think is going to interfere with that?"

Something of quite a different nature bothered Lambert, and for a few days George thought it a not unnatural resentment at seeing Blodgett in his father's office, but Lambert took pains to awaken him to the truth, after the Platters' move to town. He had an uncertain and discontented appearance.

"By the way, George," he said not

TODAY'S RECIPES

Meat Rolls—Part 1—One cup of chopped cooked meat, one-quarter cup bread crumbs, salt to taste, one teaspoon Worcestershire sauce, stock to moisten, one tablespoon of chopped parsley.

Part 2—One cup flour, one-quarter teaspoon salt, one-half cup water, one-half teaspoon baking powder.

Mix meat with bread crumbs and seasonings and add stock to moisten. Shape in small rolls.

Mix and sift flour, salt and baking powder. Rub in fat and mix to a stiff dough with the water. Roll out very thin on a floured board and cut in strips. Wrap each strip around a roll of meat and bake in a hot oven until well browned. Serve with tomato, brown or mushroom sauce.

FOR SUNDAY EVENING LUNCH

Fish With Sauces—Drain a small can of tuna fish, turn into sauce and fry in a little olive oil. Add half a can of tomatoes, a bit of green pepper fine chopped, and a teaspoonful of chopped parsley. Cook thoroughly. Add to this a half pound of cooked spaghetti, mix thoroughly with the tuna fish, heat piping hot and serve.

Macaroni Cheese Omelette—Soak two and one-half cups milk, add one teaspoon butter, one cup of chopped cheese, one-half teaspoon paprika and one teaspoon salt, and gradually add to two slightly beaten eggs, stirring eggs constantly. Put three cups well cooked macaroni in a greased baking dish, pour the milk mixture over the macaroni, set in a pan of hot water and bake slowly until firm in the center.

SUGGESTIONS

Furniture Polish—To one quart of lukewarm water add one tablespoon of vinegar and one tablespoon of olive oil. Wash small items with soft cloth and polish with dry one. Vinegar cuts film and dirt; oil softens and polishes.

Before putting raisins or other sticky substance through the food chopper squeeze a few drops of lemon juice in the chopper. The fruit will not stick to the chopper.

Always soak vessels that have contained flour, potatoes and starchy substances in cold water for the same reason. Hot water only cooks it all the tighter to the sides.

INEXPENSIVE BEDSPREAD

The kiddies will be delighted with this new bedspread. Cut two dozen bluebirds out of some scraps of blue linen. Lay a seamless sheet on the floor and arrange the birds in every direction, placing them where you wish them, then applique them firmly, marking the eyes of the birds, some with white, some yellow and others black. It makes a neat bedspread. Make a three-inch hem all around the sheet.

"Tinker Bob" Stories

by Carlyle H. Holcomb

A TWO-HEADED (1) CREATURE

They hurried into the valley. Tinker even allowed little Tim to run. And it isn't easy to sit on an elephant's head when he is running. This was what Tinker Bob saw. There was a large burrow in the side of a small hill that rose out of the valley. In the entrance of this burrow was seen the head of a creature that was indeed strange to Tinker.

When Dr. Giraffe was seen by this fellow there seemed to be a manifestation of great joy. Anyway the creature didn't leave the entrance, for which Tinker was glad. The head was of a brownish color, the ears were sharp. The front feet were very much like those of Dr. Coon back in the great forest of the homeland. "That is the funniest looking creature I ever saw in all the world," said the King. "My, but I'm glad that I came here with Dr. Giraffe!"

"I wonder why Mr. Lion doesn't get after those folks," said Silky.

"Well, the Lions and many other creatures of the wild country would like to catch these fellows if they could, but it takes a very careful creature to catch one, for they are always on the watch. Why, they even have a certain swift runner of the flock who has only one job and that is to go to the farthest point to their feeding ground and watch while all of the others feed.

As they approached, the creature came out of the burrow, and Tinker Bob was more surprised than ever to see such large hind legs and such a wonderful tail. And another strange

"Well, of all things I ever heard of, this is the queerest!" said he.

mouth, and what he was chewing he did not know.

"What in the world is that creature chewing?" he asked Dr. Giraffe.

The jungle doctor laughed again. For this seemed such a strange question to ask. "Why, these folks chew their cud like many other folks who eat grass and other vegetables."

At once Tinker Bob thought of the Hunter's cow. He had seen her chew a cud a good many times, but he didn't suppose any other creature in the world ever did such a thing. "Well,

of all things I ever heard of, this is the queerest," said he.

Then there came to his attention a little head that seemed to be thrusting itself out from between the front legs of this creature. The head was the same shape of that which the larger creature displayed, but how it came to be in that place was more than Tinker Bob could understand. "Does this creature have two heads?" he asked.

"No, that is the head of the little one. This creature has a pouch in which it carries its little one until it becomes old enough to care for itself."

Wonder if you know who this creature is now? Yes, you are right. This is Mrs. Kangaroo and her baby.

Dinner Stories

"How's Jig Fiddlin's rheumatism by now?" asked an acquaintance.

"Well," replied Sam Flatt of Stradella Ridge, Ark., "hears like it's better. His mother-in-law made up some liniment out of bone-dry hickory and

one thing and another, and I reckon she didn't weaken it down enough. Tennyrate, Jig rubbed it on his legs, and in six seconds later jumped through the window and hit out, hitting the high places for the tall timber, yelling in an unknown tongue at every jump. Took him three days to get back, and he says that either the exercise or the liniment cured him, and he don't know—p-t-u-l—w-h-i-c-h."

BEAUTY CHATS by Edna Kent Forbes

BROADENING THE SHOULDERS

Most women will say that they do not want to be broad shouldered, the broad shouldered woman is not supposed to be beautiful. The broad shouldered woman is, however, healthy and it is quite possible to have shoulders that are much too narrow. If you have shoulders of this kind, you need this new exercise I am describing.

In most gymnastics the method used to broaden shoulders is by means of lateral tension. The student stands between two upright parallel bars placed far enough apart so that his arms are extended at right angles to his body. He grasps the bar with both hands and pulls alternately first with the right, then with the left hand. This exercise strengthens laterally the muscles of the shoulders.

If you cannot take the exercise this way you can get an almost identical action by means of a stretching board, which need not be more than four inches wide, but which should be as wide as the distance from palm to palm of each hand when your arms are stretched out on either side level with your shoulders. The exercise, then, is to grasp the board between the hands and to pull on it as hard as possible, then to relax the muscles and pull again, and to repeat this half a dozen times at first, and up to 15 times when you are used to the exercise.

Incidentally this is very good for correcting round shoulders and for developing a poor chest. This and any exercise should be followed by a little deep breathing. This, too, can be practiced in bed with the head lying across the chest. It is an excellent thing to take a few mild stretching exercises before getting up in the morning.

N. S. L.—You can remove those shells from the shafts of hair by combing with a fine toothed comb which is kept well soaked with vinegar. Kerosene is used to kill the active vermin.

Jeanette—As your hair is only to the shoulders, bobbing would doubtless improve it. At 16 you have many years to wear it so before you outgrow the style. You are 15 pounds overweight, so if you get rid of this surplus, you will find that your legs will not seem out of proportion to the rest of your figure.

K. L.—Circles around the eyes usually indicate that there is some internal disturbance which requires professional treatment. This should not be construed to mean the temporary condition when circles appear from passing disturbances such as lack of sleep or a sluggish state of the liver.

One Shampoo Proves

How the action of Palm and Olive oils transforms your hair

It is interesting to watch the transformation in the appearance of your hair when you shampoo with Palmolive. To discover how glossy and soft it becomes, how fluffy without dandruff.

Notice how thoroughly Palmolive cleanses your scalp from all dirt, oil and dandruff. This is the secret of healthy hair. And healthy hair means beauty.

A blend of Palm and Olive oils

The softening effects of olive oil are responsible for the gloss and softness. It produces a mild, penetrating lather which softens and relaxes the scalp and enters each root and hair cell.

The accumulations of dirt and oil are thoroughly removed, not only from the surface but from the tissue of the scalp. Dandruff is penetrated and removed.

Palm oil contributes richness and body to this lather and makes it lasting. Both oils have been famous since Cleopatra's day for their softening, relaxing qualities which no others possess in the same degree.

Prevents dandruff

Dandruff, which doctors call seborrhea and says causes most hair troubles, is not removed by most shampoos.

The dry, oily scales are impervious to usual cleansing. It only makes them more powdery and flaky so that many people think shampooing makes dandruff worse.

But they must be got rid of some way, if you want to keep your hair. Dandruff packs around the roots and interferes with nutrition. This makes even the normal secretion found on every scalp, dangerous to hair health.

The softening, penetrating lather produced by the blending of palm and olive oils loosens the scales, dislodges them from the scalp. The delicate organism of each hair is free for healthy activity.

COUNTY TO LET 2 ROAD JOBS APR. 7

Building Beloit-Clinton Road,
Grading No. 10, Are First
Projects.

Rock county's 1922 road building program will be given April 7 when contracts for the grading of six miles of the Janesville-Evanville road and the construction of seven and a half miles of concrete on the Beloit-Clinton highway will be let by the highway committee.

Porter, smiling upon Highway Commissioner Charles E. Moore in securing cement for road building program.

Through the agreement entered into by Mr. Moore and the Marquette Cement company, Rock county was allotted 20,000 barrels of cement at a price of \$1.30. Because another county did not need all of its allotment he was able to secure an additional 10,000 barrels. These 30,000 barrels are to be stored in Janesville warehouses and are being sent here from LaSalle, Ill. Options have been accepted from other companies for road work. The Clinton-Beloit road, to be built by the highway committee, is closer to Beloit than LaSalle. Figuring the price and freight, there is only four cents difference per barrel in favor of the Marquette price according to Mr. Moore's figures. The cement secured from the other concerns will be taken as needed. Mr. Moore has secured through the government two and one quarter miles of narrow gauge track, surplus war stock, at no cost to Rock county except the freight. Mr. Moore also made a deal for 8,000 feet of 2 inch water pipe at 7 cents a foot. This will be used in the construction of the Janesville-Evanville road this spring. Figures compiled by Mr. Moore show the cost per mile of the roads last year exclusive of cement was \$13,453.

DRY AIDE WOULD DEPORT PERSISTENT ALIEN BOOTLEGGERS

(By Associated Press.)
Washington—Deportation of aliens who persistently violate the Volstead and narcotic laws was urged by the prohibition enforcement department as a means of breaking up the business of the illicit drug dealer and bootlegger.

J. P. Jones, assistant prohibition commissioner, told the house immigration committee that aliens comprised 80 per cent of those apprehended for violating the prohibition and narcotic statutes.

His statement was challenged by Representative Sigel, republican, New York. The statement was requested to produce definite figures.

Heart and Home Problems

BY ELIZABETH THOMPSON.
Letters May Be Addressed to Mrs. Thompson, in Care of the Gazette.

Dear Mrs. Thompson: When I was 14 years old a boy invited me to a party and my parents would not let me go. Now I am 15 and I have never gone with a boy. My best girl friend is going to have a party soon and she has told me to come and bring a boy friend. I haven't any brothers and I do not know of any boy to take unless it is the one who invited me to go with him two years ago. Do you think it would be all right to invite him?

Yes, it would be all right to invite him. Your invitation will probably please him since two years ago he was turned down by you.

Dear Mrs. Thompson: My girl friend and I have had a quarrel. We both like the same boy and one night he asked to come to see me and when she found it out she said she would never speak to me again. She said that if he had asked to come to see her she would not have let him, because she would have known that it would hurt my feelings.

Do you think I did wrong by letting him come to see me? Do you think I ought to apologize?

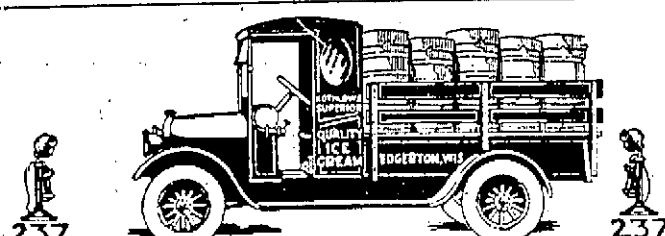

Dear Mrs. Thompson: My husband had to go out of town on business and because he had to leave me for over a month he said he would buy me a nice present when he came back. When we were married I did not have an engagement ring, because he could not afford to buy it, but I have always wanted a beautiful ring. I told him what I wanted and took him to the jewelry store to look at a ring I had been admiring for a long time. It is a solitaire diamond in a simple but beautiful platinum setting. When he came back he bought me a ring, but it is an emerald in a platinum setting. I never liked emeralds

Schaefer Retains Cue Title--Bakers Snatch Bowling Lead

HOPPE LOSES IN GREATEST MATCH, 1,500 TO 1,468

Chicago—Jake Schaefer remains world's champion at 15.2 balk-blue billiards. In a heart breaking finish Wednesday night, he nosed out veteran Willie Hoppe 1,500 to 1,468. Thereby "Young Jake" proved conclusively his two previous victories over the man who for 16 years reigned supreme in the world of balk-blue billiards were not flukes, and at the same time erased from the family scutcheon a smear marked there 15 years ago when Hoppe, when a lad in his teens, defeated the elder Jake Schaefer, father of "Young Jake".

The match partook of none of the unkindness of a "grudge" meeting, however. It was described by the many experts from throughout the country who witnessed the match as one of the greatest in the history of the game between men who for many years should remain at the top of the heap.

Hoppe Great in Defeat

Hoppe, in his new role of challenger, was great even in defeat. He took the third block by 10 points, scoring 516 to Jake's 500 and had a better average in defeat than did the victorious champion, while his high run of 250, made the first, shaded Schaefer's best by 8 points.

The final block, while no less thrilling than the first two, did not display the finished billiards Schaefer and Hoppe indulged in while the game was being played. Both showed marked evidence of the severe nervous tension they played under, and both more frequently resorted to safety play.

Losses on Miscue

Until Schaefer's final inning, his 31st stand at the table, the game was "shutbody". It was the champion's third fling at the ivories with his string showing a count above 1,400. Hoppe had two chances after his count passed the 1,400 point. On his last away the four champion needed only 45 points to wrest the laurel from the man, who had dethroned him, miscued miserably after running 13 and sat down to see Schaefer tally the final 16 which retained the championship.

On his twelfth shot in this final run, Hoppe just was about to shoot when a hoarse voice from the gallery shouted "Wait!" It was the champion's former champion had flinched with his aim longer than usual. The referee halted the game a second while he appealed for fair play.

Later Hoppe said the shout had not disconcerted him and that his miscue was "only a break in the game." He remarked that on the previous night, he had predicted that with the two of them evenly matched, breaks would decide the match.

Edwards Picked to Work Basket Meet of Amateurs

Paul G. Edwards, coach of the fast Evansville high school basketball team, will referee the amateur basketball tournament for Rock and Green counties opening at the "Y" here Friday night. A. E. Basketball fans of this city have the best opportunity of the year to give amateur sports a lift if they will take in the tournament starting at the Y. M. C. A. Friday night. At the same time their two-bits will help defray expenses. With eight teams from Rock and Green counties entered three of them from Beloit and three from this city, intense rivalry of the best kind is promised.

To the Industrial - Commercial Bowling League of this city goes a message of congratulation for the speed with which they closed up the season. Less than a week after the final games, every team has been paid its prize money. It was once said "a little child shall lead them" but that little child by the way, is growing rapidly into full manhood.

When Dorothy Hucknell was born she was carried to her mother in a glass pitcher, her eyes barely peeping over the top. She weighed three pounds. Today at 13 she is the picture of health. What did it? Swimming. "Dot" is one of the most promising swimmers of Philadelphia.

FREE CHEST CLINIC HERE NEXT WEEK

Health Workers Prepare for
Two Days of Examinations.

The traveling free chest clinic of the Wisconsin Anti-Tuberculosis association, which has been attracting widespread attention, is to visit Janesville next week, according to an announcement of the local Anti-Tuberculosis association. The dates have been set for Wednesday and Thursday, April 5 and 6, and examinations will be made at the city hall. The clinic is financed by Christmas seal funds and will be entirely free.

Co-operating with the local association, of which the officers are Miss Mabel Greenman and Rev. Henry Williamson, in arrangements for the clinic are local women's clubs, the American Legion, the health department, and local physicians. Miss Anna Leutscher, county nurse, and other public health workers of the city and county, will have charge of the advance work, assisted by two workers from the state association's headquarters at Milwaukee.

Discovers Unknown Cases.—Having as its main purpose the discovery of unknown cases of tuberculosis in the early stages, when the disease is readily curable, the clinic is especially for persons who have been exposed to tuberculosis infection through prolonged contact with a case of the disease, or who for any reason are concerned about the condition of their lungs. Every effort will be made to induce them to find out whether or not they have tuberculosis, and if they

have the disease to start the proper treatment before it has progressed too far.

12,000 People Examined.—The traveling free chest clinic was organized less than three years ago, and since that time over 12,000 people in all parts of the state have been examined. Approximately 70 per cent of this number were found to have tuberculosis. Many of these did not suspect that they had the disease before coming to the clinic, but due to its early discovery and prompt treatment are now restored to health, or are on their way to recovery. The clinic has had an amazing growth and the demands for its services are great, not only from communities not yet reached but also those wishing return visits, that it is almost impossible to fulfill requests without a long delay, the association says.

"STUMP LETTERS" TO BE HARDING'S PART IN CONGRESS RACE

Continued from page 1.
of an individual's work in congress. It is difficult for a president to avoid answering such a letter with the statement that Mr. So and So has been a staunch supporter of the republican administration and as the name of his party is entitled to party support.

Letters of Endorsement.—All recent presidents—Wilson, Taft and Roosevelt—have written such letters of endorsement and there are indications from the White House that the practice will not be discontinued. The usual thing will be done—that the way high administration officials explain Mr. Harding's attitude. The only significance to be attached thus far to the White House announcement of policy is that a formal appeal to the country to elect a republican congress will be omitted and there will be no stump speaking by the chief executive. Nor will there be any intervention in the congressional primaries. Mr. Wilson threw his support to democratic candidates in the primaries in Georgia and Mississippi and Alabama just before the 1918 campaign and made an open fight against men who opposed his policies. Mr. Harding seems to think that was a mistake and will not even oppose some of the republican senators who have fought him at every turn in this congress.

President Concerned.—The president is, of course, deeply concerned in the outcome of the congressional elections. To lose congress in the middle of his term, or even to lose control of one house, would be looked upon as a repudiation of the party and augur ill for 1924. That has been the political excuse for the past. Mr. Taft lost the House in 1910 and found himself powerless in the last two years of his administration just as did Mr. Wilson after he had lost both houses in 1918.

The extent of Mr. Harding's participation in the fall campaign by letter writing and public statements will depend upon circumstances but it is authoritatively stated that his decision to keep off the stump must not be misconstrued as a forerunner of passive silence. His course, it is suggested, instead will be one of dignified aloofness.

SURVEYORS KNOW EARTH ISN'T FLAT

Theirs an Easy Job Were Vol-
iva Right—Surveys Would
All Be Accurate.

Were there any truth in the theory of Wilbur Glenn Voliva, Zion's chief claim, that the earth is flat the job of a surveyor would be comparatively easy, according to City Engineer C. V. Kerch. But it isn't and surveyors know it because they have to make allowance for curvature of the earth in measuring large tracts. For the same reason, some farmers who think they own a quarter-section in reality have tracts of more and sometimes less than 160 acres.

Early surveys made in this section are found to be inaccurate now because a common compass was the only instrument used by surveyors. As a result, logs of 25 feet or more at the junction of two town line roads supposed to be on a straight line, are seen frequently now.

being Rosa Blazek Dvorak. She is survived by a normal 11 year old boy. Her husband was a captain in the German army and was killed in action in 1917. She was married 15 years ago. Joseph never married. The little son, Franz, has been at the bedside of his mother who, until within the last few hours, was less critically ill than Joseph.

Kin Are Normal.—The twins were the second offspring of a normal parentage in Czechoslovakia, 42 years ago. There were four children, all normal and still living. The father is also said to be alive at 65 years. The mother died a year ago at the age of 63. During a tour of the world, the

twins acquired considerable wealth. They died without making a will, although their attorney has been at the hospital bedside for several days in the hope that they would be in condition to dictate a will.

As the women grew weaker Wednesday night, physicians pleaded with the brother to permit an operation. He was the only adult relative capable under the Illinois law of giving this consent.

But, the pleas of the doctors were in vain. "No," said the brother, "no, not even if Rosa lives for hours after Joseph dies. There shall be no operation."

Every One Has A Kind Word to Say of the Page (Internal) Pile Treatment.

Two Tablets and Back to Work.

"I have been a sufferer from piles of the worst form for the past six years. I had consulted with the best doctors, but to no avail. I had been unable to work for the two weeks previous to the time I sent for your treatment, and suffered terribly, not being able to find a position I could rest in.

"The day I received the medicine I took two pile tablets after supper and one pill before I retired. The next day I worked and have continued to work ever since. I feel like a new man.

"I have recommended your treatment to a friend of mine who is bothered with itching piles, as I know it will knock 'em out."

"Thanking you kindly for the prompt attention given my order, I am, yours for success."

IRA M. SACORA.
Alasworth, Iowa.

Aged 88—Suffered for Years.

"I want you to know what your treatment has done for me. I had suffered with piles for many years and used suppositories and all kinds of treatments, but never got relief until I tried yours. Am now completely cured. Although I am 88 years old and the oldest active blacksmith in Michigan, I feel years younger since the piles left me. I will surely recommend it to all I know who suffer this way. You can use my letter any way you wish and I hope it will lead others to try this wonderful remedy."

Yours truly,
J. L. LYON.
Homer, Mich.

Told There Was No "Home Cure"

"Replying to your recent inquiry I am glad to state that the two large-size packages of Treatment I ordered for my son cured him sound and well.

"I have tried several remedies but none seemed to have any effect. I was told by some that there was no such thing as a Home Cure for piles. Then by chance I picked up a piece of scrap paper and saw your advertisement. I asked for a free sample, got it, and after I had seen what it had done, I ordered a large-size treatment and it almost completely cured my son. Then I ordered another, and I say I can bless the day that I picked up that scrap of paper and answered your advertisement. I can't say enough for the E. R. Page Pile Remedy. I have recommended it to my friends here and sent some of your pamphlets to friends in other states.

"Now you may use this letter or any part of it as you may see fit, to introduce your wonderful remedy. With best wishes for your success, I remain,

Yours very truly,

Suffered 25 Years.

"It gives me great pleasure to write and tell you I am troubled no more with Piles. I am 64 years of age and have suffered for over 25 years; have tried all kinds of Ointments, etc., without success.

"You are at liberty to use my name in reference to your Pile Cure and also my photograph, which I am sending you.

"With best regards, I remain yours very truly,"

Bleeding Piles for Six Years.

"Your Pile Tablets are surely wonderful. I was troubled with bleeding piles, off and on, for six years; couldn't get anything to cure them until I read your ad in the daily paper. The sample must have cured me—I haven't been bothered since."

Yours truly,
MRS. M. J. MANBECK,

"Can Not Be Praised Too Much"

"After suffering years with Piles I feel now as if I had never had them. Your remedy is certainly a success and cannot be praised too much. Had it not been for running across your ad in the World Almanac, I suppose I would be still bothered with this awful disease.

"I want to thank you for your kindness, and if I ever have an opportunity of recommending it I will do so."

Sincerely yours,

Took the Page Treatment 15 Years Ago

One of the most grateful letters ever received in our office is dated from Gate City, Virginia, and is signed by Mr. T. H. Quillen.

Mr. Quillen writes that he used our method for treating piles 15 years ago. He states that he was cured at that time and has never had any return of his trouble. He orders a treatment for his son.

This is a case to be proud of.

Camden, N. J., 2217 Polk Ave.
Mr. E. R. Page,
Dear Sir:—
You will have to excuse me for not answering your letter before,

but I wanted to convince myself of the merit of your treatment before replying.

"Now in regards to the treatment I cannot praise it too highly. After 7 months of continual pain I was surprised how quickly your treatment worked.

"I tried several different kinds of treatments and I found them all wanting.

"I was on the verge of going to a doctor for an operation when I saw your advertisement.

"It appealed to me because to cure piles you have to know what causes them.

"It is now 6 months since I have taken your treatment and I have not had any trouble since.

"I personally recommend this treatment to all pile sufferers.

"Wishing you the best of success, I remain, gratefully yours,"

HARRY SCHLECHTER.

Doctors Recommended An Operation

"I was a sufferer from piles. Two doctors had said there was nothing that would do me any good but an operation. First I tried a sample of your Pile Treatment and was greatly relieved. Then I ordered a regular treatment and now I feel that I am cured. I advise all people who suffer with piles to take the Page Treatment."

Sincerely yours,
J. W. SHORES,
